

Travelport Hotelzon

Hotels for business people

simplify • control • report • save

Trusted by over 500,000 users worldwide

Discover Hotelzon

Hotelzon is the culmination of over a decade of tech development. The result - a quick and simple hotel booking platform for your employees, supported by a vast suite of tools to help you easily control and report on hotel spend, plus savings of up to 20%.

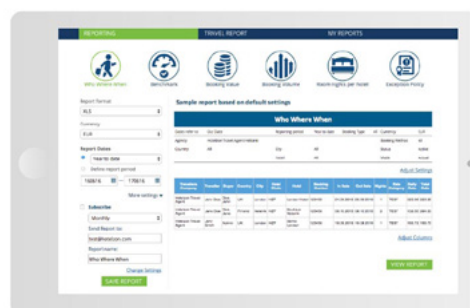

Simple and Easy Booking

Over **300,000 hotels available**, booked and confirmed within 60 seconds, from a **mobile device or desktop**.

Company Travel Policy

Manage spend, set your policy, **prioritize hotels** and help define how your company travels, all whilst benefiting from **savings of up to 20%**.

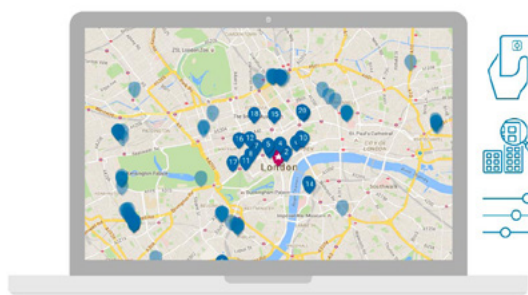

Transparency and control

Quick and simple **real-time reporting**, from spend by department, to quickly locating travellers across the globe.

Increase Buying Power

Allow your company to negotiate better rates, increase your buying power and benchmark using our rate insight tool.

And so much more...

Enjoy a suite of **innovative features**, including a range of payment options, that makes business travel easier.

Becoming business hotel clever

Over the last five years corporate hotel spend has risen by almost 7%, year on year. Demand for increased travel and hotel bookings is growing fast, but do you have the processes, and of course technology, in place to support your business as it expands?

All your bookings in one place

We give you the choice of over **300,000 hotels worldwide** so you and your team can stay in the right location, wherever you do business. Hotelzon takes away the chore of searching for a hotel and comparing prices, freeing your team's time to do something more productive instead. Not only that - a full suite of reports will give you a real-time view of how your company travels and spends.

Empower your team

Let your team choose where they want to stay, while Hotelzon helps you create a **policy that's right for your business** with customizable rules to set preferred hotels and price limits, split by department or even by individual travellers. Hotelzon is designed to be easy and intuitive to use, so your employees can make and amend their bookings themselves while your defined rules keep travel policy aligned across the organization.

Regain Control

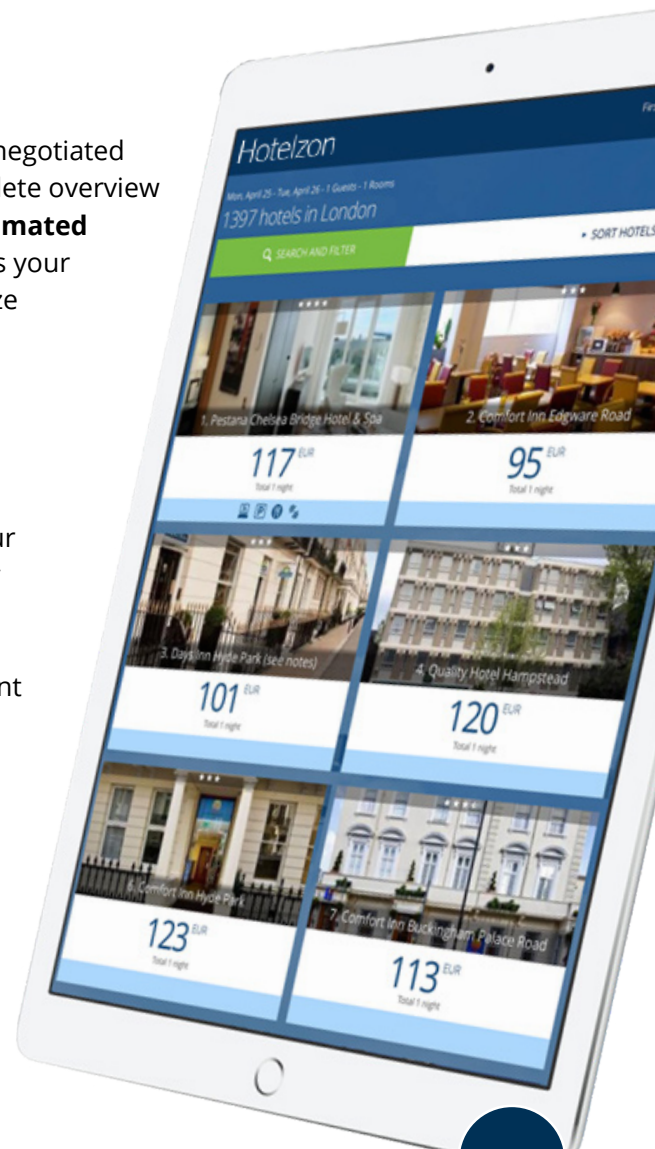

With all your people using Hotelzon you can be sure that your negotiated rates and policies are correctly implemented. You'll get a complete overview of spend and the opportunity to easily produce **real-time automated reports - delivered directly to your inbox**. And, as Hotelzon is your corporate hotel booking system, we can also help you customize the platform to fit in with your company environment, further encouraging adoption.

Keep your employees safe

Hotelzon enables your employees to search for hotels near your corporate locations, avoiding areas that you as a company may feel unsuitable. We can load these into your unique Hotelzon environment quickly and simply at the point you join us, and if you have specific locations used for projects, perhaps even client locations, we can quickly add these for you too. Plus, with our extensive reporting tools, **find where your staff are staying** at any given time with just a few clicks!

Save

With our specially negotiated corporate Zon-rates, your own contracted prices, as well as the added cost savings in time - **you'll save up to 20%**.
